

At the beginning of April, MORNSUN introduced the new 1000W AC/DC enclosed power supply LMF1000-20B series, and now the power range of MORNSUN AC/DC enclosed power supply is 15-1000W which can meet the different demands of various applications.

The LMF1000-20B has the advantages of small size (190*127*40.5mm), high power density, variable speed fan control, can be connected in parallel to boost power, etc. They meet IEC/UL/EN62368, GB4943, IEC/ES/EN60601 standards, which makes them the safe, reliable and cost-effective power converters widely used in industrial control systems, automation machinery, measurement and control instruments, medical (medical certification), etc.

Features of LMF1000-20B series

- Input voltage range: 90 - 264VAC/120 - 390VDC
- Operating temperature range: -40°C to +70°C
- Variable speed fan control
- Remote ON/OFF, digital communication;
- Support 3+1 parallel redundancy, current-sharing accuracy: <5%
- Meet 5000m altitude application
- High power density
- Meet EMI CISPR32/EN55032 CLASS B without peripheral components
- Meet IEC/UL/EN62368, GB4943, IEC/ES/EN60601 standards

For detailed information, please refer to the product news and datasheet.
